

Manufacturing Technology Conference 2024

Recommendations for Preparation

orde van octrooigemachtigden

Do you want to keep your patents valid and your trade secrets confidential?

Think carefully about *what* information you disclose, *when* and *where* you disclose it and to *whom*.

If you **give away** your important information, **anyone** can use it.

It is easy to disclose information by mistake, so keep your rights in mind when preparing your posters and presentations for the Manufacturing Technology Conference 2024, and do not add any information you want to keep secret.

Decide in advance what you are willing to discuss in person.

Manufacturing Technology Conference 2024

Recommendations for Preparation

orde van octrooigemachtigden

You can secure your rights to your information by:

- Having a patent (application) which will give you exclusive rights to your new and inventive technical innovation
- Keeping the information confidential

Would you like to know more?

You can discuss risks before the conference with a Patent Attorney* free of charge or you can join the [[Round Table Discussion]]

- Email us at mail@octrooigemachtigde.nl

*A Patent Attorney is automatically bound to confidentiality, just like a lawyer.
